Re: *Ex Parte Presentation in CC Docket No. 94-102*

Dear Ms. Dortch:

This letter is submitted to inform you that Muzibul H. Khan, Vice President, Product Management and Engineering, Samsung Telecommunications America (“Samsung”), together with Robert G. Morse and the undersigned of this Firm, had a conference call with Michael Wilhelm, Chief, Public Safety and Critical Infrastructure Division (“PSCID”), Wireless Telecommunications Bureau, and Angela Giancarlo, Associate Division Chief, PSCID on March 11, 2005. The call was held at the request of PSCID staff.

During the call, the parties engaged in a discussion regarding E-911 location capability and GSM handsets. Samsung does not currently produce a GSM handset with E-911 location capability. The parties discussed the technical feasibility of a handset-based solution and the associated network upgrades relevant to deployment of E-911 location capability in GSM handsets.

This letter is being filed electronically pursuant to Section 1.1206 of the Commission’s rules. Please contact the undersigned should you have any questions.

Respectfully submitted,

/s/
Adam D. Krinsky

cc: Michael Wilhelm
